

- The skills test has two parts: driving and maneuverability. During the test, you must have your safety belt fastened and drive with both hands on the steering wheel for complete control.
- The maneuverability test is conducted in two steps. Each step is to be completed in one continuous motion. The only instructions you will be given by the examiner are to steer to the right or the left of the point marker.

STEP ONE: You must drive forward through a box (9 feet by 20 feet) formed by four markers. Note: All measurements are made from the center of the cone. Steer to the right or left of the point marker (20 feet ahead of box in center of course) as directed by the examiner. Steer to a straight ahead course and stop when the rear bumper of your car is even with the point marker and generally parallel with the course. (See diagram.)

STEP TWO: From your stopped position at the end of STEP ONE, you must be able to back past the point marker. Straighten your car and back through the box and come to a stop with your front bumper even with the two rear markers and generally parallel with the course. During this step, if you stop your vehicle because you hit a marker, you must go back to the start and begin step two again. Before the test is complete, your vehicle must be removed from the test area without running over a marker or committing any other dangerous action.

- When you have successfully completed your skills test, the examiner may provide you with a receipt acknowledging completion of your skills test.
- You are not authorized to operate a motor vehicle without a licensed driver occupying the seat beside you. The Ohio Driver License must be obtained before the expiration date of your TIPIC.
- You must proceed to the Deputy Registrar and surrender your TIPIC. You will also be required to present acceptable documents (refer to 2 - 6), and pay all applicable fees (for current fees, visit www.bmv.ohio.gov).
- Applicants under the age of 18 must be accompanied by a parent or legal guardian to co-sign, who must also present either a valid driver license or a valid Ohio ID card or two other forms of acceptable documents verifying identification, (see Acceptable Documents List, 2 - 6).

SCORING

Points are deducted for:

- Stopping to check progress
- Bumping markers
- Misjudging stopping distance
- Not parallel with test area
- Immediate failure = running over or knocking down a marker, removing a marker completely from its designated area or other dangerous action.
